NEW WEB PORTAL FOR MARKETING YOUR INVENTORY

Corporate Lodging (CL) – A brand new accommodation web portal for 30+ extended stays has launched globally with something for everyone. CL has partnered exclusively with Aaxsys to display real time inventory to the public using three methods of taking reservations through their platform:

1. "On line instant bookings" directly into your reservation boards on Aaxsys with real time availability.
 2. "Book by Request" for guests making direct inquiries on a particular property to the Housing Provider
 3. "General Request" for companies or personnel in need of housing in a specific location but not property
- CL is available for any provider wanting to display and market a few units or all their inventory, nationally. Companies on Aaxsys, as well as those on other operating systems can sign up with CL by paying a small percentage of each booking only. CL, like Air BnB and others, is a pay per performance model.

For details and further information about Corporate Lodging and how to participate visit their booth # 52 at the CHPA Conference or contact:

THE GDC

Increasing Interest in Aaxsys Feeds to Housing Web Portals

Since the inception of the Aaxsys Global Distribution Channel (The GDC) our members have been on-boarding digital content into Aaxsys for feeds out to accommodation web portals such as booking.com.

Things are picking up as Corporate Housing in metropolitan areas is becoming main stream. New Channel Partners include **Rentals Combined; Tripping; Left and Shared Spaces.**

NEW AAXSYS MEMBERS

PARTNER with these providers by exchanging real-time availability links over your web-site, and/or book directly into their res boards.
